Business Process Model and Notation (BPMN) is a graphical representation for specifying business processes in a business process model.. Business Process Management Initiative (BPMI) developed BPMN, which has been maintained by the Object Management Group since the two organizations merged in 2005. Version 2.0 of BPMN was released in January 2011, at which point the name was adapted to ...

Business Process Model and Notation - Wikipedia

Business Model Canvas is a strategic management and lean startup template for developing new or documenting existing business models. It is a visual chart with elements describing a firm's or product's value proposition, infrastructure, customers, and finances. It assists firms in aligning their activities by illustrating potential trade-offs.

Business Model Canvas - Wikipedia

Executive Summary. Reprint: R0812C. Why is it so difficult for established companies to pull off the new growth that business model innovation can bring?

Reinventing Your Business Model - Harvard Business Review

In a basic sense, the business model is about how a company organizes to sustain itself. It draws on a multitude of subjects including entrepreneurship, strategy, organization, finance, marketing and operations management.
