In the English language, a split infinitive or cleft infinitive is a grammatical construction in which a word or phrase comes between the to and the bare infinitive of the to form of the infinitive verb. Usually an adverb or adverbial phrase comes between them.. A well-known example occurs in the opening sequence of the Star Trek television series: "to boldly go where no man has gone before ...

Introduction. The concept of the past perfect is easier to grasp than that of the present perfect (see teaching tip for present perfect) partly because the event is usually clearly in the past. Still, when discussing the use of past perfect in relation to the past it is worthwhile to highlight the perfect aspect, as this may help make sense of the present perfect.

A Note on Terminology | Advocates of free translation have invented several terms to refer to their approach. The term dynamic equivalence was coined by Eugene Nida in an attempt to avoid the negative connotations of the word paraphrase. Later, Nida used the term functional equivalence to avoid the negative connotations which quickly became attached to dynamic equivalence.
