What is Personality? Personality is an easy concept to grasp for most of us. It's what makes you "you". It encompasses all the traits, characteristics, and quirks that set you apart from everyone else.. In the world of psychology research, personality is a little more complicated.

Big Five Personality Traits & The 5-Factor Model Explained

Personality is defined as the characteristic set of behaviors, cognitions, and emotional patterns that evolve from biological and environmental factors. While there is no generally agreed upon definition of personality, most theories focus on motivation and psychological interactions with one's environment. Trait-based personality theories, such as those defined by Raymond Cattell define ...
