Financial Accounting vi Objectives and Scope of Accounting Let us go through the main objectives of Accounting: To keep systematic records: Accounting is done to keep systematic record of financial transactions. The primary objective of accounting is to help us collect financial

Financial Accounting - tutorialspoint.com

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...

Accounting - Wikipedia

Algorithmic trading is a method of executing a large order (too large to fill all at once) using automated pre-programmed trading instructions accounting for variables such as time, price, and volume to send small slices of the order (child orders) out to the market over time. They were developed so that traders do not need to constantly watch a stock and repeatedly send those slices out manually.
