What is Geospatial Analysis online? Geospatial Analysis online is a free web-based resource It provides a comprehensive guide to concepts, methods and tools, with many examples being provided using a variety of software tools such as ArcGIS, Idrisi, Grass, Surfer and many others to clarify the concepts discussed . Click here for the free Geospatial Analysis book online (best viewed on a ...

The principle of power system analysis by V. k. Mehta is best of best book ever written on power system transmission and distribution. In most of the engineering universities the edition the is used for study is 4 th as it included some extra chapter than older ones. The little book contains basic information of power system.

Financial modeling is the task of building an abstract representation (a model) of a real world financial situation. This is a mathematical model designed to represent (a simplified version of) the performance of a financial asset or portfolio of a business, project, or any other investment.. Typically, then, financial modeling is understood to mean an exercise in either asset pricing or ...

Solid modeling (or modelling) is a consistent set of principles for mathematical and computer modeling of three-dimensional solids.Solid modeling is distinguished from related areas of geometric modeling and computer graphics by its emphasis on physical fidelity. Together, the principles of geometric and solid modeling form the foundation of 3D-computer-aided design and in general support the ...
