Operations research, or operational research in British usage, is a discipline that deals with the application of advanced analytical methods to help make better decisions. Further, the term 'operational analysis' is used in the British (and some British Commonwealth) military as an intrinsic part of capability development, management and assurance.

I have a bibtex database of optimization references (900K) available online. These are mostly interior point references. A searchable version of this bibliography is also available. I also have an unorganized list of announcements of computational packages that are available for solving a variety of problems. This page is not updated often enough, so some of the links are no longer functional.
